KNOWLEDGE & SKILLS

- Website creation using HTML/XHTML, CSS, and JavaScript/DHTML.
- Server-side feature creation, customization, and maintenance, using PHP and Perl.
- Adobe Dreamweaver, including advanced template creation and application.
- Experience in a range of tasks using Adobe Creative Suite 2 (Photoshop, Illustrator, InDesign, and Acrobat).
- Extensive use of Joomla! Content Management System, versions 1.0 and 1.5. Tasks range from planning, installation, and client site template development, to creation of custom plug-ins and core modifications to support requested features, as well as training and supporting clients using the system.
- Working knowledge of Adobe Flash, including creation of splash pages, photographic displays, online video, and visual elements for sites.
- In-depth familiarity with both Mac and Windows platforms, as well as some Linux experience.
- Familiarity with a wide range of other software and Web applications.
